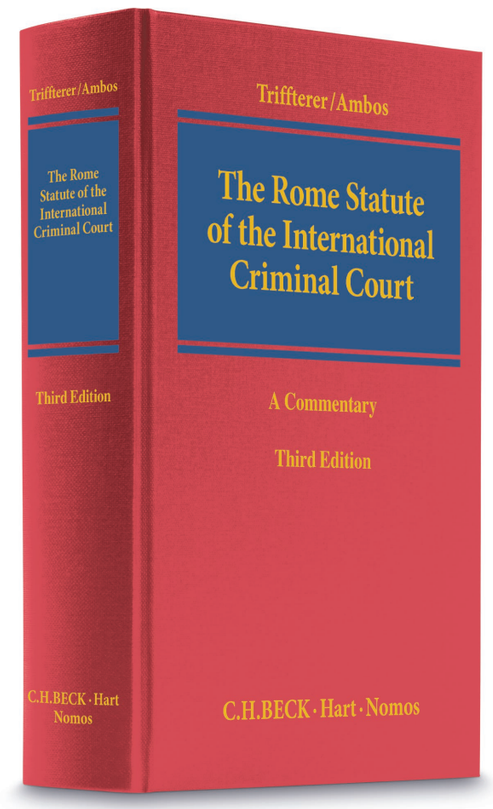
The Rome Statute – Backbone of the ICC.



3rd Edition 2016!

C.H.BECK

A valuable help for all practitioners.

The Rome Statute of the International Criminal Court of January 1, 2002,
empowers the ICC, as laid down in the Preamble to the Statute, to affirm »that the most serious crimes of concern to the international community as a whole must not go unpunished and that their effective prosecution must be ensured by taking measures at national level and by enhancing international cooperation«.

This Commentary

contains an English-language article-by-article analysis of the Rome Statute, adopted by the Assembly of States in 2002, and the »Regulation of the Court«, adopted by the Judges of the ICC in 2004. The commentary was founded by Prof. Otto Triffterer. Its first edition appeared in 1999 and quickly became the number one reference for ICC practitioners and academics alike. The second edition followed almost 10 years later in 2008; now, after almost eight years, there is a thoroughly revised third edition. **The third, updated edition** is a further brick in solidifying the wall of the evolving system of international criminal justice.

Praise for the 2nd edition

"The commentary is a valuable help for all practitioners and scholars dealing with the Rome Statue."
The European legal Forum, 1-2009 (1-60)

"In sum, the 'Triffterer' is still the best commentary on the ICC available on the market at this time and will be useful for practitioners …"
ICLRev 9 (2009) 855-857

"… a valuable replenishment of the library of any international lawyer."
G.I. Bogush in International Law Journal 04/09, 269-274, for the second edition

"This Commentary represents a most valuable contribution to a more erudite understanding and interpretation of the Rome Statute and therefore a powerful tool to document and supplement the development of international criminal law."
From the introduction by Sang-Hyun Song, former President of the International Criminal Court
